21	Highway 64/Oklahoma Boulevard which is east/west through Alva needs significant improvements for roadway surface and drainage, new curbing, and safe pedestrian paths. Because of the uneven roadway it can feel dangerous to change lanes or get hemmed in by traffic. The same is true for Highway 281 which comes in from north of Alva and passes through town south. This highway needs improvements for driving surface, drainage, curbing, and safe pedestrian pathways. These two highways are major transportation arteries in this area and need attention concerning widening into at least Super Two highways.	6/11/2022 10:44 PM

2	Several trains have not hit their horns at the three intersections/crossing in Fairmont - some will hit it for one or two, some hit it for all three, but many don't hit it at all. The track comes through town at an angle so it isn't always easy to see a train coming, and there is only one crossing with signal lights and arms. They have also stopped the train and block the three crossings, preventing emergency access to parts of town, and we have a lot of elderly people living in Fairmont.	11/22/2022 9:30 AM

Visibility is sketchy at the intersection when stopped at the traffic light to turn east. This intersection needs to be widened for semi trailer turning. Alva also needs a designated truck route for trucks and semi trailers to get to the grain elevators to the north of the town square.
